i-CAT – Making the i-CAT work for you
i-CAT two day course
8:00am – 5:00pm (each day)

This course has been designed for individuals that wish to own an i-CAT cone beam CT unit. The course is a “hands-on-course” designed to show you how use the i-CAT and understand that basics of operation. The course will also show you how to customize the i-CAT operations and make it work for you in your practice.

This course is very similar to our 1 day, though we will start off with explaining & working directly with an i-CAT machine so that students become comfortable using the machine before moving forward with more advanced lectures.

Course Objectives.

- Learn and discuss applications and limitations of conventional 2d imaging
- Learn about CBCT/ i-CAT
- Learn about the anatomy of a CBCT Unit
- Learn about advantages of 3d imaging
- Learn about accuracy of 3d Imaging
- Learn about risk associated with CBCT
- Learn and practice i-CAT operations
 - Patient positioning
 - Software functions
 - Template Population
- Learn specific CBCT Marketing Strategies
- Learn how to integrate a CBCT into your practice work flow
- Learn insurance billing codes and strategies
